

# HEIN MIN HTET

Full Stack Developer

## ABOUT ME

Versatile Full Stack Developer with 4+ years of experience delivering end-to-end solutions in dynamic web environments. Skilled in both frontend (React.js, Vue.js, Next.js) and backend (Node.js, NestJS, PostgreSQL) technologies. Adept at building full-featured platforms from design to deployment, with a strong grasp of UI/UX, database systems, and scalable server architectures. Quick learner, team player, and active tech community contributor.

## EXPERIENCE

### Freelance Software Developer

May 2025 – Present

- Built a real-time platform with role-based dashboards for users, agents, and admins.
- Developed responsive UI using React.js, Zustand, AntD, and Socket.io.
- Implemented live data tracking, custom reporting modules, and real-time notifications.
- Optimized performance, state handling, and data reliability.

### Software Developer

May 2024 – Jan 2025

Bardar, Sydney

- Built and maintained full-stack features for admin and event tools using React.js, TypeScript, Node.js, and PostgreSQL.
- Integrated server-side logic with seamless UI updates for enhanced user experience.

### Freelance Software Developer

Oct 2023 – Mar 2024

- Developed full-stack barcode generation tool, from backend logic to frontend interface.
- Created map visualization platform with complete frontend and backend coordination.
